Administration

CONCEPTS AND ROLES

The Board of Trustees expects the administration to promote the creation of the best possible educational program and to maintain an environment conducive to learning. The Superintendent shall provide the vision and educational leadership in this effort and shall give top priority to meeting the needs of all students and actively helping teachers raise academic achievement.

The Board of Trustees recognizes that district administration performs essential roles and functions in support of student learning, including the provision of instructional support and services to schools as well as the responsible management of noninstructional operations. The Superintendent or designee may make decisions concerning district operations within the parameters of law and Board policy.

The Superintendent shall provide leadership in developing administrative regulations and organizational structures, decision-making processes, and staff action plans that allow the district to fulfill its vision and goals. The Board also expects the Superintendent to help shape the culture and environment of the district in a manner that focuses district operations on enhancing student achievement, encourages positive relationships within the community, and instills confidence in district schools.

The Board and Superintendent shall work together as a team in the exercise of district governance. The Board and Superintendent shall establish protocols that describe how the governance team will operate, including, but not limited to, agreements regarding Board meeting operations and communications between the Superintendent and the Board.

Because the Superintendent is the only district employee who is directly selected and evaluated by the Board, the Board has a responsibility to ensure that the Superintendent possesses the skills and attributes that best meet the needs of the district.

The Board and Superintendent shall agree upon a system for evaluating the Superintendent, including the evaluation criteria, method, evaluation instrument, process, and timeline.

All schools and departments shall form a single administrative system organized so that appropriate decision-making may take place at various levels in accordance with Board policy and administrative regulations. The Board expects the Superintendent to recognize, develop and use the leadership abilities of staff.
CONCEPTS AND ROLES (continued)

The Superintendent may delegate to other district staff any duties imposed upon him/her by the Board. The Board desires to give all administrators the authority they need in order to carry out their assigned responsibilities. This delegation shall not relieve the Superintendent of responsibility for actions taken by his/her designees.
