

Bylaws of the Board

Recruiting New Board Members

In order to draw Board member candidates from the widest possible number of interested, active, well-informed citizens, the Superintendent or designee shall publicize widely all public Board meetings, committee openings, and community-related school events and shall encourage the participation of parents/guardians and members of the professional and business community in these activities.

The Superintendent or designee shall publicize school Board elections well in advance so that prospective Board candidates will have time to investigate the responsibilities of Board membership and comply with legal requirements.

(cf. 9220 - Governing Board Elections)
