California Department of Education School Accountability Report Card Reported Using Data from the 2016-17 School Year Published During 2017-18

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fq/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the [CDE DataQuest Web page](#) that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (School Year 2017-18)

American Lakes School is located four miles north of metropolitan Sacramento in a rapidly growing community of residential homes, modern business offices and large apartment complexes. American Lakes School is focused on closing the achievement gap for all ethnicities and income levels as well as second language speakers. As evidenced by our demographics, there is a wealth of diversity in our student population and community and our mission is to ensure all of our students will be college-bound, lifelong learners empowered with aspirations to make a positive impact in the community as actively contributing, responsible citizens. The staff at American Lakes School is committed to the NUSD Vision, Core Beliefs, and Commitments that all NUSD students graduate as college and career ready, productive, responsible and engaged global citizens.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2017-18)

Natomas Unified held a public hearing on September 27, 2017 and determined that each school within the district had sufficient and good quality textbooks, instructional materials, or science lab equipment pursuant to the settlement of Williams v. the State of California. All students, including English learners, are given their own individual standards-aligned textbooks or instructional materials, or both, in core subjects for use in the classroom and to take home. Textbooks and supplementary materials are adopted according to a cycle developed by the California Department of Education, making the textbooks used in the school the most current available. Materials approved for use by the State are reviewed by all teachers and a recommendation is made to the School board by a selection committee composed of teachers and administrators. All recommended materials are available for parent examination at the district office prior to adoption. The table displays information collected in September 2017 about the quality, currency, and availability of the standards-aligned textbooks and other instructional materials used at the school.

Year and month in which the data were collected: September 2017

School Facility Conditions and Planned Improvements

American Lakes School was built in 1983, and modernized during the 2004/2005 school year. There are 22 classrooms, 9 portables, 3 Special Ed rooms, 7 Admin/Library/Multipurpose buildings, and 2 playgrounds. A new library was added to the building as a result of the modernization. The campus is in good repair with no urgent issues based upon the Williams inspection of August 2017. American Lakes has 2.5 dedicated custodial staff members. In summer of 2017, the school site received a repainting of the exterior and a refresh of the front parking lot. The custodial staff is responsible for ensuring that all classrooms and facilities are in adequate condition. A work order process is used to ensure efficient services with emergency repairs given the highest priority. Maintenance staff ensure that work orders are completed in a timely manner, and that schools remain in good standing.

The exterior painting was a planned deferred maintenance project.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

CAASPP Test Results in ELA and Mathematics for All Students

Grades Three through Eight and Grade Eleven (School Year 2016-17)

Subject	Percentage of Students Meeting or Exceeding the State Standards					
	School		District		State	
	2015-16	2016-17	2015-16	2016-17	2015-16	2016-17

Mathematics (grades 3-8 and 11)	23%	17%	35%	33%	36%	37%

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Students with Disabilities	19	19	100%	
Students Receiving Migrant Education Services				
Foster Youth				

Note: ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3--Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The 2016-17 data are not available. The California Department of Education is developing a new science assessment based on the Next Generation Science Standards for California Public Schools (CA NGSS). The new California Science Test (CAST) was piloted in spring 2017. The CST and CMA for Science will no longer be administered.

School Safety Plan (School Year 2017-18)

Our Comprehensive School Safety Plan is in compliance with Senate Bill 187. In addition to an Incident Command structure this document outlines responses to fire, flood, earthquake, toxic spills and intrusion. This document and procedures are reviewed annually by our Safety Committee to ensure alterations based on concerns evidenced during evacuation and intrusion drills. We practice fire drills monthly and lockdown drills at a minimum of at least twice a year so that everyone has had the opportunity to practice the procedures outlined in our Safety Plan.

Professional Development

During the 2015-2016 school year, our professional development focused on Kindergarten through 5th grade implementation of Common Core State Standards, Depth of Complexity, Infinite Campus, Go Math K-5, CAGs, English Language Development and NWEA data analysis. In 2016-2017, our professional development has focused on refining our K-5th grade implementation of Common Core State Standards, CAGs, English Language Development, NWEA data analysis and Standards-Based Grading. This year, our focus is on developing a shared understanding and instructional practice of the following: 1) Formative Assessments-Assessment for Learning; 2) Rigor or Cognitive Demand of the California Standards; 3) Components of Lesson Design; and 4) Data Driven Instructional Practices. These trainings were provided during district and site-based assigned Professional Development days, staff meetings and Wednesday PLC collaboration time.
