**California Department of Education**  
**School Accountability Report Card**  
**Reported Using Data from the 2016-17 School Year**  
**Published During 2017-18**

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fq/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

### DataQuest

DataQuest is an online data tool located on the [CDE DataQuest Web page](#) that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

### School Description and Mission Statement (School Year 2017-18)

H. Allen Hight Elementary School opened in August of 2008. As of December 2016, we are a Preschool - 5th grade school of approximately 650 students. We are an International Baccalaureate Program Authorized School. We became fully authorized in March of 2016. We are striving to build a community of lifelong learners, and we are determined to meet the needs of all of our students in a respectful, safe, and positive environment. We will accomplish this by inspiring, encouraging, and motivating our students to do their best in an academic setting and in life. We believe all students should have access to a quality education that supports them, celebrates and embraces diversity, and serves each student equitably. We incorporate differentiated instruction, environmentally sound practices, a technologically rich, standards-based curriculum, and innovative lesson plans that actively engage our students by recognizing a variety of learning styles. Our parents, staff, and community members collaborate to advance these goals. We are confident that our instructional strategies will prepare our future leaders to be savvy problem solvers with strong character. We believe our students will be fully prepared to meet the challenges of the 21st century.

## A. Conditions of Learning

### State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

#### Teacher Credentials

Teachers	School			District

**Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2017-18)**

Natomas Unified held a public hearing on September 27, 2017 and determined that each school within the district had sufficient and good quality textbooks, instructional materials, or science lab equipment pursuant to the settlement of Williams v. the State of California. All students, including English learners, are given their own individual standards-aligned textbooks or instructional materials, or both, in core subjects for use in the classroom and to take home. Textbooks and supplementary materials are adopted according to a cycle developed by the California Department of Education, making the textbooks used in the school the most current available. Materials approved for use by the State are reviewed by all teachers and a recommendation is made to the School board by a selection committee composed of teachers and administrators. All recommended materials are available for parent examination at the district office prior to adoption. The table displays information collected in September 2017 about the quality, currency, and availability of the standards-aligned textbooks and other instructional materials used at the school.

Year and month in which the data were collected: September 2017

## School Facility Conditions and Planned Improvements

H. Allen Hight Elementary School opened on August 11, 2008 as a K-5 school. In August of 2010, it was expanded to a K-6 school. In August of 2013 it returned to a K-5 school. The district was approved as an International Baccalaureate (IB) Primary Years Program Candidate School in June of 2013. The school was then authorized as an International Baccalaureate (IB) Primary Years Program in March of 2016. The campus is located at 3200 North Park Drive, Sacramento, CA 95835.

H. Allen Hight Learning Center is a 210,000 square foot facility. The school accounts for nearly one half of the facility space. It is a two story building that consists of 44 classrooms, resource/collaboration rooms, a computer lab, a library, and a multipurpose room for serving lunch to the students and holding events. In addition, we have a general playground area, an outside eating area, a gym, an administration office building, a staff work room, and a staff lounge. There are at least two boy's restrooms, two girl's restrooms, and two staff restrooms on each floor. The Special Education and six Kindergarten rooms include a restroom in each room.

H. Allen Hight has 3 dedicated custodial staff members. Our custodians and staff work diligently to keep the campus clean. Students and parents have participated in Earth Day work days and Saturday Clean Days to keep the campus clean. A work order process is used to ensure efficient services with emergency repairs given the highest priority.

An exterior painting is scheduled for the summer of 2018.

## B. Pupil Outcomes

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

#### CAASPP Test Results in ELA and Mathematics for All Students

##### Grades Three through Eight and Grade Eleven (School Year 2016-17)

Note: ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3--Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The 2016-17 data are not available. The California Department of Education is developing a new science assessment based on the Next Generation Science Standards for California Public Schools (CA NGSS). The new California Science Test (CAST) was piloted in spring 2017. The CST and CMA for Science will no longer be administered.

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite

#### Opportunities for Parental Involvement (School Year 2017-18)

At H. Allen Hight Elementary School we strongly encourage our parents and guardians to participate. By participating on the School Site Council (SSC) or English Learner Advisory Committee (ELAC), parents provide input on the programs at our school. We recommend that each family complete a minimum of 20 service hours per school year. We write letters to employers, schools, government agencies, and other entities, acknowledging parent participation at our school. To be eligible for parent or guardian participation at H. Allen Hight, parents must complete a Natomas Unified School District Volunteer Information packet and have it signed by the Principal. Packets may be picked up at our school or at our District office, located at 1901 Arena Boulevard, Sacramento, CA 95834. All volunteers must be fingerprinted. In addition, volunteers must obtain a current TB certificate (within the last 60 days). For additional information please call (916) 567-5456.

Here are some of the ways parents can participate in their child's education:

- Join and actively participate in the Parent-Teacher-Association (PTA)
- Join and actively participate on the English Learner Advisory Committee (ELAC) parents
- Join and actively participate on the School Site Council (SSC)
- Attend class with their child periodically (we request 24 hour notice to the school)
- Serve as a chaperone for a school-sponsored activity or field trip
- Provide office assistance to teachers and other staff members
- Assist students with safe passage as they cross streets and intersections near school
- Donate supplies and student materials such as backpacks, paper, pencils, and crayons
- Encourage businesses and employers to donate mentors and supplies

The Hight Family believes the best schools have a significant degree of parent and community participation. We want to welcome our parents, guardians, family members, neighbors, business partners, and friends to our campus!

## School Safety Plan (School Year 2017-18)

We have implemented our Comprehensive School Safety Plan pursuant to Senate Bill 187. Our district is a part of the Emergency Management System to make our school safety plan more consistent. This is an online system. We meet during each school year to review and revise our safety plan. Our School Site Council reviews the plan and our School Leadership Team reviews it and serves as the Incident Command Team during an emergency. We receive input from the students, parents, staff, and members of the community regarding safety issues. Our committee reviews our site safety needs and updates the Crisis Management REDI Guide periodically. The principal has participated in safety trainings to prepare for various events. Our plan outlines procedures for fire drills/emergencies, campus intruder/lock down drills, threat response actions and flood/earthquake preparedness. We work with our partner school, Natomas Middle School, to coordinate emergency drills and to prepare for safety issues on our campus. We utilize *Second Step* curriculum (Pilot School) and have officially launched our *Positive Behavioral Interventions and Supports* (PBIS) Tier 1 program (Professional development for staff which includes school wide positive behavior assemblies and a token economy) to improve our campus climate and safety. We created three school rules on campus for the staff and students. These include being responsible, respectful, and safe. Examples of these school rules are posted throughout the campus.

## Professional Development

Our school district officially provides regular professional development for GoMath and Wonders. Our district has provided professional development on Common Core State Standards, curriculum alignment guides (CAGS), Student Behavior strategies, IB topics, and technology training. We also provide Staff Development and Professional Learning Communities during our regular staff meetings. During our staff development sessions, we have covered Common Core training, Professional Learning Communities, working with students who have disabilities, Bloodborne Pathogens, Sexual Harassment Prevention, California Testing (CAASPP) Information, Grade level and Schoolwide Collaboration, and Student Success Teams (S.S.T.). Teachers have received training on teaching English Language Development (ELD) and successful strategies for promoting increased learning for English Language Learners. In addition, Beginning Teacher Induction, Teacher Expectations and Student Achievement training. Teachers are given an opportunity to visit and observe their grade level peers to enhance their teaching skills and to reflect on other approaches to promoting student learning. Our School Site Council has written staff professional development training directly into our Single Plan for Student Achievement (S.P.S.A.) We want to provide all the necessary professional development to our staff to increase our ability

determine what we want students to learn, assess whether the students have learned what we intend, develop a plan for when students have not learned the stated goal or objective, and develop a plan to further academically challenge the students who have learned what we wanted them to learn.
