California Department of Education School Accountability Report Card Reported Using Data from the 2016-17 School Year Published During 2017-18

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fq/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the [CDE DataQuest Web page](#) that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (School Year 2017-18)

Natomas Gateways Middle School (NGMS) is located on the campus of Natomas High School in north Sacramento County. NGMS is a comprehensive middle school that was founded in the fall of 2014 with its first class of 7th graders. Its vision is consistent with the district's vision to prepare all NUSD students to graduate as college and career ready, productive, responsible, and engaged global citizens.

NGMS promotes a rigorous academic setting committed to producing students who read carefully, think critically, and work together to improve the local and global community.

Natomas Gateways Middle School Mission Statement:

To focus on student-centered learning; provide experiences in Science, Technology, Engineering, and Math that motivate all students to achieve at their highest levels; provide a rigorous and technologically-enhanced curriculum; and inspire collaborative, creative, and critical thinking.

NGMS has grown into a full 6th-8th middle school with the addition of its first 6th and next 7th grade classes in the fall of 2015. Accordingly, we have a full complement of student activities, parent groups, athletics, clubs, and student leadership.

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2017-18)

Natomas Unified held a public hearing on September 27, 2017 and determined that each school within the district had sufficient and good quality textbooks, instructional materials, or science lab equipment pursuant to the settlement of Williams v. the State of California. All students, including English learners, are given their own individual standards-aligned textbooks or instructional materials, or both, in core subjects for use in the classroom and to take home. Textbooks and supplementary materials are adopted according to a cycle developed by the California Department of Education, making the textbooks used in the school the most current available. Materials approved for use by the State are reviewed by all teachers and a recommendation is made to the School board by a selection committee composed of teachers and administrators. All recommended materials are available for parent examination at the district office prior to adoption. The table displays information collected in September 2017 about the quality, currency, and availability of the standards-aligned textbooks and other instructional materials used at the school.

Year and month in which the data were collected: September 2017

School Facility Conditions and Planned Improvements

NGMS is located on the campus of Natomas High School which was built in 1997. The campus consists of 27 classrooms, 42 portables, 32 Special Ed rooms, and 7 Admin/Library/Multipurpose buildings. Students take most of their classes in a newly renovated building. Students access the multi-purpose room for lunch, two science rooms, and art/music classroom on the NHS campus. The main NGMS building was completely renovated from top to bottom during the summer of 2014. Improvements were made to the interior structure cosmetically as well as upgrades to bathrooms, electrical, and wireless access. The facility passed all safety and facilities inspections at the state level with flying colors. In 2015 a school locker facility was constructed for physical education classes. In the summer of 2017 all student hallways were repainted to brighten the interior spaces along with the addition of brand new LED lighting technology. The auxiliary gym was also enhanced with updated paint, and new digital scoreboard.

HVAC and lighting system upgrades scheduled for 17/18 using prop 39 funds

Natomas Gateways has 2 dedicated custodial staff members.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

CAASPP Test Results in ELA and Mathematics for All Students

Grades Three through Eight and Grade Eleven (School Year 2016-17)

Subject	Percentage of Students Meeting or Exceeding the State Standards

Mathematics (grades 3-8 and 11)	11%	10%	35%	33%	36%	37%

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Foster Youth	--	--	--	--

Note: ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3--Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Note: Science test results include California Standards Tests (CSTs), California Modified Assessment (CMA), and California Alternate Performance Assessment (CAPA) in grades five, eight, and ten.

Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The 2016-17 data are not available. The California Department of Education is developing a new science assessment based on the Next Generation Science Standards for California Public Schools (CA NGSS). The new California Science Test (CAST) was piloted in spring 2017. The CST and CMA for Science will no longer be administered.

School Safety Plan (School Year 2017-18)

Our safety plan was created to match that of our sister site of Natomas High School since we are located on the same physical location. This plan has been reviewed by a representative group of students, staff, administrators and parents at our School Site Council. The plan is comprehensive and includes detailed plans for fire, flood and emergency situations. It includes comprehensive evacuation contingency plans that dovetail with the district's comprehensive plans for student safety.

Professional Development

The primary area of focus for NGMS is to support our staff and to create school-wide consistency in implementing the Common Core State Standards and the Next Generation Science Standards while developing as a community. In 14-15, all teachers had the opportunity to attend seven days of workshops by Equity and Access and to receive instructional coaching on instructional strategies to promote increased classroom rigor, structured student interaction, and regular checking for student understanding. In 15-16, all teachers continued to participate in training focusing on refining the implementation of Common Core State Standards and the implementation (Rigor), CAGs, YAGs and PLCs. The teachers were not only supported by an outside instructional coach, but one of our staff members volunteered to get additional training to coach our staff during her open periods. In 16-17, all teachers had the opportunity to attend training on Restorative Practices and Community Building during the summer and first quarter. The training focused on creating community in the classroom and on campus, strengthening connections and reducing conflict. All teachers also have the opportunity to participate in ongoing professional development on a variety of topics through School Leadership and Support department. In 2017-18 teachers have continued to participate in site and district professional development focusing on our Aligned Instructional Systems, Assessment and Data driven PLCs. Teachers will also continue to have regular opportunities for collaboration, teacher-administration meetings, and access to instructional support through district Teachers on Special Assignment specializing in math, English Language Arts and English Language Development. During our regular collaboration time and staff meetings, the NGMS staff reviews and analyzes student achievement data to plan instruction, assessment and intervention needs.
