

Jefferson School: ROARing to Success

Promoting the Jaguar Way

WHY JEFFERSON SCHOOL?

Jefferson School is a great place to be! Our campus is a one-to-one technology campus, meaning each teacher utilizes and incorporates technology within their classroom in creative and engaging ways. Scholars at Jefferson use technology to engage in deeper thinking and lifelong skills that help them to be college and career ready. Jefferson is committed to creating an environment that achieves equity for all scholars. It ensures that all students are successful learners by challenging and supporting each to thrive as a global citizen, achieve academic excellence, and embrace the richness and diversity of our community. That is why our goal is to **ROAR** to success by creating a **R**espectful and caring environment, having an **O**rganized school community, **A**cademic excellence, and positive **R**elationships with students, families and the community.

IS JEFFERSON RIGHT FOR MY STUDENT?

Jefferson is committed to cultivating a community of scholars, staff and parents in which student learning is our primary goal. Jefferson is a Positive Behavioral Interventions and Supports (PBIS) school, promoting positive and preventative strategies for student behavior. Teachers and staff build positive relationships with scholars, who develop positive relationships with peers. Jefferson also offers free extended-day programs led by teachers and staff to increase the academic success of our scholars. Students have many opportunities to participate in free after-school activities, including sports, running club, and music. We also have a free Masters after-school program that runs until 6 p.m. each day. Jefferson School is also applying for IB candidacy for the 2019-2020 school year this April and we are very excited to be expanding our current campus to become a PK-8 campus within the next two years.
