

Bannon Creek School: 'Whatever It Takes!'

The Beaver Way...Our Way of Life...K-8 School

WHY BANNON CREEK SCHOOL?

Bannon Creek School strives to increase students' academic, social, and emotional achievements with strong partnerships and collaboration among students, staff, families, community members, district programs, and NUSD administrators.

Bannon Creek's Professional Learning Community implements California's academic standards, Positive Behavioral Interventions and Supports (PBIS), technology learning, and extracurricular activities. Students' academic data is analyzed to provide and guide the best possible learning environment.

Bannon Creek is committed to providing a nurturing and rigorous academic environment. The Beaver Way, our PBIS plan, creates a campus way of life that supports student interactions to increase social-emotional and academic skills. Our community and staff work together at regular monthly meetings to build a safety net of support for all stakeholders. As we maximize individual potential, we can achieve our school-wide goals. In the spirit of teamwork and responsibility, Bannon Creek fosters the motto, "WHATEVER IT TAKES!"

IS BANNON CREEK RIGHT FOR MY STUDENT?

Our Bannon Creek community believes that all children can learn. We do whatever it takes to nurture, educate, and challenge our students. The academic progress of each learner is measured using district and state assessments. Student performance is reviewed regularly and shared with families. To ensure student needs are met, interventions and enrichment strategies are provided for students performing below and above grade-level standards. Ongoing instruction in social-emotional skills development and celebration of student success creates an environment that fosters appreciation for learning and cultural diversity. It is our mission to empower students to respond confidently and successfully to life's transitions and challenges. We are in the process of expanding to a K-8 school, which will support our goals and mission to promote student achievement and readiness for college and career.

HOW DOES MY STUDENT BECOME A BEAVER?
