We will talk about what it is, when you can use it, why it’s important, and how we can incorporate it into our daily lives.	
Marijuana and Opioids (Geared towards 6-12 families) – Room 103 Nick Mori Today’s marijuana is stronger and more accessible than ever and its impact on youth can be significant and long lasting. Opioids receive national attention due to their risk for dependency and overdose...and you might even have them in your medicine cabinet. This session will cover what parents should know about both drugs. Cyber Bullying , Cyber Safety (Geared towards 6-12 families) - (One 50 minute session) Room – 110 Kelly Clancey & Jagroop Singh Come join NP3 high school counselor Kelly Clancey as she and senior Jagroop Singh speak about cyber safety and cyber bullying.			
Safe Sleep Baby (Geared towards K-6 families) - (One 50 minute session) – Room – 106 Mya Atmore The education we provide is based on recommendations from the American Academy of Pediatrics to safely sleep babies under 1-year-old. We provide the education along with brochures to families, but we also educate hospitals, community- based service providers, medical providers, and anyone else who serves babies under 1-year-old. We have realized after interviewing parents/caregivers that it is important for parents with new babies to hear consistent messages about safe sleep practices.			
Mental Illness: It’s not always what you think (Geared towards K-12 families) - (One 50 minute session) – Room 108 Chantal Allen-Jarrell, MPH Mental illness affects every ethnic, racial, economic, religious, and age group. Roughly one in every five adults will experience a diagnosable mental disorder during their lifetime. The <i>Mental Illness: It's not always what you think</i> project was initiated by Sacramento County Department of Health Services/ Division of Behavioral Health Services (DHS/DBHS) to: Reduce stigma and discrimination, promote mental health and wellness and inspire hope for people and families living with mental illness. We want to change minds, attitudes and outcomes.			
Raising Responsible Kids (Geared towards K-8 families) - (One 50 minute session) – Room 105 Jenn Rickards and LeighAnn Walker In this session, you will discover foundational methods for how to raise responsible kids. Participants will learn the value of reducing stress in parenting, maintaining a positive mindset by asking reflective questions, coming alongside your children to teach them how to become more responsible.			
Parental Involvement: Helping Your Child Maximize Academic Potential (Geared towards K-12 families) - (One 50 minute session) – Room 102 Mitzi Missio Address the most important measures of student achievement that parents can utilize to help their child. Help reduce the fears that hold parents back from the challenges they face. Provide opportunities for parents to brainstorm solutions to real-life parent/student challenges. Educate parents on how to build lasting values, scholarly dispositions, and positive behaviors and attitudes in their middle school child.
