

Dear Parents of 8th grade students,

High school counselors will be visiting your student's advisory the week of April 8th to go over scheduling for the 2019-2020 school year. During this visit high school counselors will be going over the course selection handout and helping to guide your student in the choosing of their courses. There is a video that was created by the TV & Media class at the high school which highlights and explains some of the electives that are offered. We encourage you go watch this video with your student during break as it can be found on the NP³ Middle School website. Your student's advisor will also be showing the video prior to our visit.

Once students have filled out their course selection handouts they will have both their advisor and parent sign off on the courses they have chosen. Following student, advisor, and parent agreement on the courses that are selected, students will fill out the Google Form for 9th grade course selection the week of April 15th and all submissions will be due Friday, April 19th. It is very important that students use their handout as a guide in the Google Form, which will be located on the NP³ Middle School homepage.

The schedule of when high school counselors will be joining your 8th grader's advisory is:

Monday, April 8th: Silas & Kons
Tuesday, April 9th: Berry & Kees
Wednesday, April 10th: Snelling & Harrigan
Friday, April 12th: Hara

This spring, schedules will be developed based off of each student's input in the Google Form. Counselors make every effort to create schedules based on students' first choice, but depending on course offerings and the master schedule, some students may be enrolled in their alternate choices. Final schedules will be presented to students at Freshman Orientation before the start of school.

The NP³ High School counseling team is very excited to start working with the class of 2023!

Thank you,

NP³ High School Counselors
