

Calculus 3.4b Warm-up – 10/22/15

- 1) Calculate y' given $x^2y + 2y = 3y^2$
- 2) Calculate the equation of the tangent line to $x^2y + 2y = 3y^2$ at $(-1,1)$

Assignment 3.4b

Pg. 53 # 10-14

Agenda

- Warm-up
- 3.4b notes – Implicit Differentiation
