

Welcome to our presentation for families of Scholars freshmen. The slides have already been uploaded to the Scholars/DP website, so please don't worry about missing any details. The uploads contain some additional information which we won't be covering tonight, but please feel free to email if you have questions about that information, too.

Please note that the counselors have already presented to the freshmen during one of their classes and held individual meetings with them. During those meetings, they completed the students' MYAPs (multi-year academic planner) in Infinite Campus. MYAPs were completed as if all the students would do the full IB Diploma. Adjustments will be made next year when students are ready to make their actual decisions about choosing the IB Diploma or Certificate plans.

Counselors Debbie Eisberg & Lindsay Stoddard, IB DP/Scholars Coordinator Jessica Downing

## Inderkum IB Math Sequence

Please note that IB has changed the courses effective 2019-20. The new titles are included, but we may make minor adjustments to our IB Math pathways after the teachers are able to fully review the syllabi.

Course grades will be considered alongside teacher recommendations, IB math placement test results, standardized test results, students' requests, and students' college/career goals when determining math placement for grades 11 and 12. Students on the IB Certificate pathway may consider non-IB Diploma Programme math courses for grades 11 and 12.

### Non-IB DP Math Sequences

9	Math I	Math I	Math I	Math II	Math II+	Math III
10	Math II	Math II	Math II+	Math III	Math III+	Trig/PreCalc
11	Math III	Math III	Math III+	Trig/PreCalc	AP Calc AB	AP Calc AB
12	EAP Math	Trig/PreCalc	AP Calc AB	AP Calc AB	Statistics	Statistics
