CITY PLANNING

Objective: We will be able to research the attributes and features of a city by using city websites and Internet search engines.

Step 1: Create a Google Document

Step 2: Choose a city to research (You may not pick a city in Northern California)

Step 3: Research the following parts of your city below (USE the CITY website)

1. Incorporation, boundaries, departments and borders

A. Name of the city:

B. Location and square miles

C. List the areas that the city is in control of (Departments: Animal control, police, fire protection, etc.

2. Structure of city government

A. What type of government does your city have?

3. City Features

A. What type of attractions, venues, etc. does your city have?

B. What type of activities does the city provide for the people?

Step 4: Create a Google Presentation

1. Photo Tour

              A. Create at least 5 pages to detail your city's key features

              B. Include the following:

1) City Buildings

              2) Transportation

              3) Parks and recreation

              4) Attractions

              5) Housing Options
