

**Enrichment Course Descriptions**  
**Available to all grade levels (6th-8th)**

**World Languages:** Bonjour, Hola, Ciao! Do you enjoy K-Pop, Banda, or music/shows in other languages? Join us in World Languages, where we will look at different languages and learn a little more about them. This is a chance to explore and test your skills with the unique and fun words, and accents used all around the world. We will be creating products, singing, practicing some dances, and overall enjoying the variety we find in the world around us.

**Art and Imagination:** Let your creativity soar in Art and Imagination! Come explore different artistic styles, such as graphite, line work, optical illusion art, comics and characters, still life, and self-portraits. You will also get the opportunity to develop your own style. You will walk away from the class with a personal portfolio and an understanding of art as a whole. Come have fun in a relaxed environment and explore your imagination!

**Graphic Design:** When you think of the most famous brands and companies in the world, what do you think of? Do you think of their fonts, logos and color patterns? Graphic design is more than making something look good. It is a powerful tool that combines text, color, and pictures to create memorable art. In this course, you will learn how to use platforms such as Canva and Photoshop to create your own unique designs. Let's create and inspire!

**Gardening:** Welcome to Gardening Enrichment! Get ready for messy, hands-on fun as we learn about seasonal crops, how to turn food scraps into nutrient-rich soil, and how to care for succulents. From compost competitions to propagation stations, there is always a project in the works in our Gardening Enrichment.

**Dance:** Come join in for some introductory dance enrichment. We will explore the foundations of jazz, hip hop, and modern and cultural dance. You will have the chance to learn the basics of moving to the rhythm and choreographing small dances.

**Sports:** Have you ever wondered what sportspeople play all over the world? Join World Sports and Games to participate in games that are popular around the world. Some games that we will be playing are soccer, basketball, handball, ultimate frisbee, kickball, and more! Each sport will be broken down into learning and training activities to better understand how the sport is played. We will also hold mini-tournaments to compete in that sport. All athletic and competitive levels are welcome! Train. Compete. Excel: that's World Sports and Games.

**Creative Writing:** Express yourself! In Creative Writing we will practice our creativity and share our story through written and spoken word. Write an ode to your airpods, demonstrate your sweet layup skills with a how-to presentation, or write a script for a brand new TV show! In creative writing we will become confident in our creativity!

**Vibe and Flow:** Vibe and Flow is a course that will help you relax and chill out at the end of the day. On Mondays and Tuesdays we will do calming activities such as coloring, playdoh, and puzzles. On Thursdays and Fridays we will do yoga together! We will learn how to calm our bodies and minds, while taking great care of ourselves. Come chill out in Vibe and Flow!

**Drama Improv:** Do you like being creative, playing games, and having fun? Join our Drama Improv class! Improv is a type of drama class where we will pretend to be characters, make up scenes or skits, and do a variety of drama games- all spontaneous and without scripts. Some of our activities will include games and activities that focus on improv skills, practicing storytelling, and making fun character skits. This class is your chance to be creative, get out of your seat, and express yourself in a variety of ways.

**iTravel:** Come travel to exotic and interesting places around the globe. We will explore the geography, traditions, and history of places you may want to travel to and see in person someday! We will look at the culture, the people, and tourist attractions that make these places unique and a "must visit."

**NP3 Trending:** Learn how to create entertaining, quality content for our middle school community! In NP3 Trending, we will learn how to create and publish personality quizzes, attention-grabbing listicles, and report on NP3 Middle School trends. Join our class to be part of this trendsetting team!

**Engineering Adventures:** Do you like a challenge? How about some friendly competition? Then "Engineering Adventures" may be just what you're looking for. We will be building bridges, creating tin foil boats, racing our aerodynamic car models, and reaching the skies with our towers made from household items. We will also learn about how different materials and designs contribute to a well-made product.

**Eco-Craft: Upcycling Adventures!** In this class, students will embark on an eco-friendly journey, transforming discarded materials into treasures through projects like making recycled paper, mosaic art, building with reclaimed materials, knitting and crocheting with reused yarn, origami, and more. Not only will students develop essential skills, but they'll also gain an understanding of the importance of environmental responsibility. Join us for an exploration of creativity, sustainability, and fun as we turn trash into fantastic treasures!
